

This food product will lay down a foam blanket of protection to protect against cross contamination of organisms between treated areas in food processing plants.

This system specifically designed to provide a high foaming specially surfactant to provide you with an area of food plants.

When used as directed, this product will prevent cross contamination from treated area to treated area in packaging and storage areas of food plants.

This product was specifically formulated to provide a high foam layer of protection for foaming downy sanitizers.

When used as directed, this product will prevent cross contamination from treated area to treated area in packaging and storage areas of food plants.

After the flow begins to drip, repeat this procedure two more times.

RESIDUE REMOVAL INSTRUCTIONS: Triple rinse container promptly after emptying. Triple rinse as follows: Fill the container $\frac{1}{4}$ full with water and recap. Shake for 10 seconds. Follow pesticide disposal instructions for rinsate disposal. Drain for 10 seconds and repeat.

PESTICIDE DISPOSAL: Offer for recycling if available or puncturable and dispose in a sanitary landfill, or by other procedures approved by state and local authorities. Follow Pesticide Disposal Instructions.

CONTAINER DISPOSAL: Non-reusable containers: Do not reuse this container to hold materials other than pesticides or rinsate.

ENVIRONMENTAL DISPOSAL: If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

PESTICIDE DISPOSAL: Impropoxysulfone wastes are acutely hazardous. Impropoxysulfone residues spray mixture or rinsate is a violation of Federal Law. If these wastes are disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

STORAGE AND DISPOSAL

This product is toxic to fish.

Do not contaminate water, food or feed by storage and disposal.

This product is toxic to fish.

Do not contaminate water, food or feed by storage and disposal.

ENVIRONMENTAL HAZARD

Do not mix with oxidizers, animal soaps and detergents.

PHYSICAL OR CHEMICAL HAZARDS

Handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get into eyes, on skin or on clothing. Wash thoroughly with soap and water after feeding, seed, fertilizers, and veterinary supplies. Store empty containers away from food, pet container must be contained within another, mark the outer container to identify the contents. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children.

DANGER, KEEP OUT OF REACH OF CHILDREN. Causes irreversible eye damage and skin burns. Harmful if

swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get into eyes, on skin or on clothing. Wash thoroughly with soap and water after feeding, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Apply this product with a cloth, mop, mechanical spray device or foaming device. When applied with a mechanical spray device, surfaces must be sprayed until thoroughly wetted. For disinfection, treated surfaces must remain wet for 10 minutes. For sprayer applications, use a coarse pump or trigger sprayer. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. For foaming applications, foam must be applied at a rate of 1.128. See device manufacturer for operating instructions. Allow to air dry. Do not breathe spray. Rinse with potable water after use on surfaces that come in contact with food.

NOTE: With spray applications or foaming device, cover or remove all food products. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. For heavily soiled areas, a preliminary cleaning is required.

Before use in federally inspected meat and poultry food processing plants and dairies, egg processing plants, meat/poultry producing establishments, food products and packaging materials must be removed from the room or carefully protected. After use, all surfaces in the area must be thoroughly rinsed with potable water. Do not use this product to clean or disinfect utensils, glassware, dishes or interior surfaces of appliances.

DISINFECTION: This product is bactericidal according to the AOAC Use Dilution Test method on hard, inanimate surfaces, modified in the presence of 5% serum against: *Salmonella enterica*, *Staphylococcus aureus*.

Preparation of Use Solution: Add 1 ounce per gallon of water to disinfect hard, non-porous surfaces. This product is not for use to disinfect or clean eating utensils, glassware and dishes.

FOR CONTROL OF DROSOPHILA spp. AND THE PHORIDAE FAMILY OF FLIES ON NON-FOOD CONTACT SURFACES:

For control of small flies: *Drosophila* spp. and the Phoridae family. To control flies on non-food contact surfaces such as floors, walls, countertops, metal surfaces, painted surfaces, glazed porcelain, glazed tile, glass, chrome, rubber, and plastic in restaurants, kitchens, dishwashing areas, and bar and wait station areas. Remove food and food packaging prior to use. Cover exposed food-handling surfaces. After removing gross filth, apply a solution of 3 ounces of this product per 5 gallons of water (or equivalent use dilution) (450 ppm active quat) to surfaces and locations where flies may breed. Spray surfaces thoroughly or apply by pouring, mopping or sponging onto the surface. Repeat application 1-2 times per week or as needed. Do not contaminate food and food packaging.

FOR CONTROL OF SMALL FLIES IN DRAINS:

For control of small flies: *Drosophila* spp. and the Phoridae family. Spray or pour solution of 3 ounces per 5 gallons of water (or equivalent use dilution) (450 ppm active quat) into drain during time of lowest level of drain use. Add 14 ounces of solution daily to each drain to maintain fly control. Apply around edge of the drain and coat all sides of inside of drain.

SANITIZER DIRECTIONS FOR NON-FOOD CONTACT SURFACES

This product is an effective non-food contact sanitizer as evaluated using the Method for Efficacy of Sanitizers recommended for Inanimate non-food Contact Surfaces at 200 ppm, 1 ounce per 4 gallons of water solution (or equivalent use solution) in the presence of 5% organic soil with a contact time of 1 minute against the following:

Escherichia coli O157:H7
Staphylococcus aureus

Salmonella enteritidis
Salmonella enterica

Klebsiella pneumoniae
Yersinia enterocolitica

Shigella dysenteriae
Campylobacter jejuni

Listeria monocytogenes

Preparation of Sanitizer Use Solution: For floors, walls, tables, etc. At 1 ounce per 4 gallons of water use-level, this product is an effective sanitizer on hard, non-porous environmental surfaces.

Apply sanitizer use solution to precleaned, hard non-porous surfaces with a cloth, mop, sponge, sprayer or foaming device or by immersion. For sprayer applications, use a coarse pump or trigger sprayer. Spray 6-9 inches from surface. Rub with a brush, sponge, or cloth. Do not breathe spray.

NOTE: With spray applications cover or remove all food products.
